

This dashboard likely belongs to a custom employee task management system built using Google Sheets and Apps Script. It displays a summary of employee data, including total employees, pending requests, and approved or rejected leaves. The system facilitates administrative tasks such as managing leave requests and adding new employees directly through a web interface.

"Manage Employees" dashboard from an employee management system. It features a table listing employee IDs, names, departments, designations, emails, and phone numbers. Functionality includes a search bar to locate specific employees by name, department, or ID. An "Add Employee" button is available in the top right corner for creating new records.
